HUGHES DECLARES PARTY REUNITED

NOMINEE SAYS MAINE VOTE SHOWS PROGRESSIVE AND G. O. P. TOGETHER.

REACHES END OF TRIP

Plattsburg Speech Marks Closing of First Trip of Presidential Campaign.

Plattsburg, N. Y., Sept. 12.—Charles E. Hughes in the last speech of his first presidential campaign trip, asserted here tonight before a crowd that filled the opera house that the result in Maine had proved the Republican party was reunited. He declared the party would not "change its plans or aims." Persons in the audience took the reference to apply to criticisms of the methods pursued in conducting the present campaign and applauded the nominee vigorously.

"I come to you," Mr. Hughes said, "as the spokesman of a reunited Republican party. We have said it was reunited, we have devoutly hoped it was reunited. Now Maine proves that it is reunited. Whoever was skeptical about that before, must hide his cynicism now. We shall abandon no efforts. We shall not change our plans or aims, but we shall go forward with renewed confidence because the old State in the northeast corner has spoken in no uncertain voice."

Mr. Hughes assailed the Wilson Administration for failure to reduce the cost of living, for extravagance, for failure to protect American lives and rights abroad and for failure to "live up to its promise to observe the merit system." The nominee emphasized the "previous" declarations that the campaign was a "good-natured" one. He delighted, he said, to call his political opponents his "friends on the other side."

"It is a time for assessment, for appraisal and for candid statement," he said. "No one in this country can object to full and fair discussion. That is the very spirit of our institutions. But we are all friends, however divided politically."

"I do not desire, in speaking of those who do not agree with me, to manifest the slightest disrespect. If the argument is sound it will carry without any suggestion of personal enmity. We do not need that in our campaigns. What we need is fairness and truth, and then let the electorate decide."

"Our friends on the other side tickled the ear with many promises which they have not fulfilled. They said that the Republican party was responsible for the high cost of living. They have been in power for some time and I do not see that the high cost of living has been reduced. It seems to be beyond Democratic control."

"It was said they would dispose of many useless offices. The abolition of useless offices has not been quite so apparent as the appointment of useless officers. It was said that they would get rid of extravagance. The Republican party was arraigned for extravagance. Now it becomes our painful duty to arraign the Democratic Administration for extravagance."

"Our friends on the other side told us four years ago that they were going to be true to the principle of the civil service. The principle of the civil service has been betrayed. They told us that the lives and property of American citizens abroad would be protected. That was one of their most explicit promises. That was sound doctrine. The only trouble was that it was not performed."

Earlier in the day the nominee visited the military training camp here, remaining for dinner with Maj. Gen. Leonard Wood. Tonight Mr. Hughes praised the camp in his speech.

"It is a training school in democracy," he said. "It is a discipline that knits men together in wholesome comradeship. It is preparedness, not only military, but civil and moral. It is a great means of drawing men of all sorts together in recognition of a common fellowship and in the delight of wholesome co-operation. That is the spirit we must have in this country if America is to go

forward. If America indeed is to hold her place among the nations in the troublous days of the Twentieth Century.

"I desire to see these camps maintained in various parts of our land and men in constantly increasing numbers seeking the benefit of the training and discipline. I believe that our citizen reserve should be trained under Federal authority. I think it was a great mistake to abandon the plan that was first formulated with that end in view."

"This is the land of the free and the home of the brave. If it ceases to be the home of the brave, it will soon cease to be the land of the free."

A delegation of former Progressives, headed by William E. Howell, chairman of the Progressive County Committee, and a number of suffragists, occupied seats on the platform.

Mr. Hughes left Plattsburg at 10:50 o'clock tonight for New York. He will remain there until tomorrow afternoon when he will go to his summer home at Bridgehampton, Long Island, there to remain until September 17 or 18, when he starts on his second campaign trip.

REPUBLICANS OPEN HARTFORD QUARTERS

CHAIRMAN CONDIT COMES TO COUNTY SEAT AND PREPARES FOR CAMPAIGN.

Republican County Campaign Chairman Hice Condit arrived in Hartford Tuesday night from his home near Pt. Pleasant and opened headquarters in the offices on Main street recently vacated by the Gem Oil company. Chairman Condit, Secretary Heavin and other prominent local Republicans were busy men Wednesday arranging the preliminaries of what they termed one of the most vigorous campaigns ever waged in Ohio county.

The headquarters will be maintained until after the election in November and the offices are being decorated and made to present a gala appearance. Chairman Condit stated yesterday that he wanted every Republican in the county, who could possibly do so, to visit headquarters during the campaign. He expects to spend most of his time here between now and the election, and is optimistic in regard to the outcome in Ohio county this fall.

FORMER OHIO COUNTY WOMAN DIES IN ILLINOIS

Word was received here last Friday that Mrs. J. R. Williams had died at her home in Shawneetown, Ill., after several days of illness. Services were held Sunday afternoon and the remains were interred in Shawneetown.

Mrs. Williams was a daughter of Mr. D. L. Smith, now living in Owensboro, and was born and reared in this county. She was a most estimable lady. Besides a husband and three children she is survived by four sisters and two brothers—Mrs. Dr. J. R. Pirtle, and Mrs. W. E. Newbolt, Hartford; Mrs. John McCuen, of Tulsa, Okla.; Mrs. A. C. Frier, of Fairfield, Ill.; Walter and Clarence Smith.

Mrs. Pirtle and Mrs. Newbolt were present at the death and burial of Mrs. Williams.

OHIO COUNTY PIG SOLD AT THE STATE FAIR

Master John Allen Wilson has the pig exhibited here in the Ohio County Pig Club contest, on exhibit at the State Fair. John Allen has sold the pig for the sum of \$30.00, which is a net profit over and above purchase cost including total cost of all feed consumed of \$15.54. This does not, however, include a cash prize of \$1.50 and the free trip, board, &c., at and during the State Fair awarded John Allen in the contest here. The pig is also entered in two or three rings at the State Fair and it is said that a premium of \$6.00 to \$10 is almost certain to be captured by John Allen, who he had not learned of the result at the hour of going to press.

Thus we have a practical demonstration of how it pays to keep only the best of stock and that only in a scientific and up-to-date manner.

MAINE CARRIED BY REPUBLICANS

REVISED FIGURES PLACE PLURALITY OF GOV.-ELECT MILLIKEN AT 13,355.

LOOKS GOOD FOR G. O. P. WILL JOIN THE ALLIES

Election of Whole Ticket Indicates Victory For Chas. E. Hughes In November.

Portland, Me., Sept. 12.—As the returns from isolated towns and plantations straggled in to-day from the Maine elections, revised figures place the plurality of Governor-elect Carl E. Milliken, Republican, over Gov. Oakley C. Curtis at 13,355. Returns from the border show that the members of the Second Maine infantry cast a total vote of 470, of which Milliken received 300.

Pluralities for the Republicans, who will send a solid delegation to Congress, were practically unchanged from the figures of last night, as were the pluralities of Frederick Hale and former Governor Bert M. Fernald, who were elected to the United States Senate.

The Republicans, who have held a majority in the State Senate, will control both houses by a good working majority.

Revised Vote.
The revised vote for Governor, United States Senators and Congressmen follow:

Governor—Milliken (Rep.), 79,902; Curtis (Dem.), 66,547.
United States Senator—Hale (Rep.), 78,044; Fernald (Rep.), 79,368; Johnson (Dem.), 68,273; Sills (Dem.), 66,832.
Congressman—Goodall (Rep.), 19,732; Stevens (Dem.), 16,103; White (Rep.), 19,157; McGillicuddy (Dem.), 18,770; Peters (Rep.), 21,820; Bunker (Dem.), 18,277; Hersey (Rep.), 15,066; Pierce (Dem.), 11,013.

The battle between Representative D. J. McGillicuddy, Democrat, and W. H. White, Republican, was close. The Democrats had staked everything on this contest and they had sincerely expected to win. The Republicans believed also that they, the Democrats, stood an excellent chance of winning.

Spectacular Campaign.
The election was the climax to the most spectacular campaign ever waged in New England. It was one of the most hotly contested battles ever waged anywhere.

RESIGNATION OF GREEK CABINET

IS ACCEPTED BY KING CONSTANTINE AND GREECE BELIEVED PREPARING FOR WAR

Athens, Sept. 12, via London Sept. 13.—King Constantine has accepted the resignation of Premier Zaimis and his cabinet.

The belief is entertained in the entente capitals that the retirement of the Zaimis ministry is preliminary to the entrance of Greece in the war with the allies. Recent dispatches from Berlin and Vienna show that there, also, it is regarded as probable Greece will soon abandon neutrality and join the entente powers.

The precise causes which led to the resignation of the ministry have not been disclosed, on account of the exceptionally rigid censorship.

A London dispatch yesterday said M. Zaimis had complained that internal incidents were preventing him from dealing with the external situation. It is believed in London that his resignation was due to the fact that he accepted the Premiership on the understanding that he was to maintain neutrality, and in view of the Bulgarian occupation of Greek territory had found this impossible.

Start of The Trouble.

Up to the time of the dispatches announcing that M. Zaimis had presented his resignation his retirement was unexpected, for it was understood the Premier had assumed dictatorial powers and was in an exceptionally strong position. Political affairs reached a crisis after the Bulgarians invaded Northeastern Greece, and the followers of former Premier Venizelos served warning on King Constantine that he must abandon the advisers who, it was said, had misled him and influenced him in favor of Germany. At this time M. Venizelos expressed confidence in M. Zaimis, whom he asked the King to support, and it is understood an agreement had been reached under which the Zaimis ministry was to continue in power with the strong support of the Venizelos party.

After the fall of the Venizelos cabinet last October, on account of the King's disagreement with its policy favoring intervention in the war with

the allies, M. Zaimis was called on to form a cabinet. He announced a policy of armed neutrality. The cabinet resigned in November, but in June M. Zaimis was again placed at the head of the government. Although advocating neutrality, he was regarded as having a predisposition toward the Entente.

FIGHT OVER PROPER BAPTIZING METHODS

Paris, Ky., Sept. 12.—During the progress of a camp-meeting at Giltner's Grove, near Hutchison, this county, Sunday night, two negroes named Charles Morton and Clifton Kuster, became involved in a difficulty over the question of a proper way of being baptized. In the mixup that followed Morton fired three shots at Kuster, one of which took effect in his left breast, striking a rib, the ball lodging under the skin in his back.

After the shooting Morton made his escape, going in the direction of Lexington. The wounded man was brought to Paris for medical attention. His wound, while dangerous, is not necessarily fatal.

ENGLAND REFUSES TO POSTPONE EMBARGO

BRITAIN WILL NOT GRANT EXTENSION OF TIME ON TOBACCO BAN.

Washington, Sept. 11.—The British Government refuses to postpone its embargo on American tobacco consigned to the Central Powers. Secretary of State Lansing, writing to Senator James to-day, says that the State Department has put before the British Government a request for a further extension of time in which shipments of tobacco may be made to the Netherlands without consignment to the Netherlands Overseas Trust. "I have the honor to inform you," writes Secretary Lansing to Senator James, "that the American embassy at London has now reported by telegraph that the British Government regrets that it cannot accede to the department's request in the matter."

"As this decision relates only to a specific request made with a view to moderating the hardships of those who found themselves unable to fulfill outstanding contracts because of the brief time given in which to make arrangements to that effect, it will not affect the department's effort to secure the removal of all restrictions upon the shipment of tobacco to Europe, which will be continued in every proper way possible."

BRITISH VIOLATE THE NEUTRALITY OF THE U. S.

Washington, Sept. 12.—Violation of American neutrality by a British torpedo boat, which held up and examined the Philippine steamer Cabu within the territorial waters of the Philippines, was reported to the War Department today by Governor-General Harrison.

The dispatch immediately was transmitted to the State Department, and will be made the subject of a vigorous protest to Great Britain.

There has been more than one complaint about the activity of the British vessels around the Philippines, and while Gov. Gen. Harrison's report furnishes the basis for a specific protest, it is probably that Great Britain will be called upon to restrict the operations of patrolling squadrons generally in and near the territorial waters of the island.

774 GALLONS OF BEER POURED INTO CREEK

Princeton, Ky., Sept. 13.—Following a raid made on an alleged "soft drink joint" in Webster county, the authorities there confiscated 172 cases of beer and poured it into the waters of Hammond's creek, near Providence.

The beer was contained in 6,192 bottles, aggregating a total of 774 gallons. J. C. Skelton, owner of the alleged "Jingo joint," had been fined and sentenced to jail on the charge of violating the prohibition laws of the county. He had appealed from the verdict and pending the appeal had left the county, and hence did not put in his appearance to protest against the destruction of the beer.

SUBMARINE WAR TO BE REVIVED

GERMANS CONSTRUCTING POWERFUL UNDER-SEA FLEET FOR BLOCKADE.

ZEPPELINS TO BE USED

No Vessels Carrying Food or Ammunition Will Be Allowed to Reach Great Britain.

London, Sept. 12.—In a dispatch from Berlin to the Daily News, Rutledge Rutherford says:

Germany has decided to declare a blockade against England, effective on January 1. For this purpose a powerful fleet of submarines is being completed, and plans are being worked out to make the blockade a stringent one.

The movements of the submarines, it is said, will be guided to some extent by Germany's high-flying Zeppelins.

These submarines and Zeppelins will be equipped with extra sensitive wireless apparatus.

One high in the councils of the German naval administration today said:

"By the end of the year, and perhaps a little sooner, Germany will have in fighting trim 300 submarines of the most efficient type, and no vessel carrying food or munitions will be permitted to reach England."

Real Blockade.
"Ours will be a real blockade, not a coercive or illegitimate one, such as England pretended to institute against Germany."

"No compensation will be felt regarding the revival of submarine warfare because it is felt that England's abrogation of the Declaration of Landon has left Germany free of restraint in the matter of her promise to America."

Walter Forstmann, Germany's most skilled submariner, is on the program to command the squadron of submarines. He recently received the order of Merite for sinking more than 100 vessels, which include transports, patrol vessels and merchantmen.

The return of the great submarine Deutschland from the United States has encouraged further under-sea efforts. Many new submarines will be equipped with improved devices, one of which will enable submarine commanders to detect and destroy nets which England has laid and will lay in great numbers.

Mystery enshrouds the whereabouts of the submarine Bremen. That she has suffered damage to her engines or has been sunk by a British destroyer is denied by naval authorities here.

The Bremen should have reached Baltimore, however, before the Deutschland started on her return trip.

STONE TO FLOAT—SHIP IS MADE OF CONCRETE

Christiania, (via London), Sept. 13, 1:54 a. m.—A new type of ship has arrived here from the ship yards of Christianiafjord. The ship, which resembles a huge barge, is constructed entirely of concrete, except for the ribs, which are steel. It is said that the hull will resist damage better than steel or wood and that the ship is, therefore, safer.

More British Gold Here.

New York, Sept. 12.—Gold bars valued at between \$22,000,000 and \$25,000,000 were deposited at the assay office Sunday and yesterday by J. P. Morgan & Co., it was learned to-day. The gold came from Canada, and, according to report, arrived at Halifax recently under convoy of British warships. Canada's gold shipments to this country for the present movement now exceed \$250,000,000.

FRENCH WRITER TELLS OF BATTLE

EYEWITNESS OF RETAKING OF THIAUMONT DESCRIBES FIGHTING.

WORST ON VERDUN FRONT

German Signals To Men In Trenches Are Changed Nightly By Using Different Rockets.

Paris, Sept. 9.—Details from an eyewitness have just been received describing the retaking of Thiaumont, for months a desperately contested point on the Verdun front. The French officer penning the account says the struggle exceeded in ferocity anything since the beginning of the battle. He writes: "About 9:30 in the evening hundreds of guns, mostly of large calibre, opened their destructive fire preparatory to the infantry advance. Owing to the firmness with which the Germans were entrenched in the village, the bombardment was incessant and intense. The concentration of heavy firing on this spot created din heard twenty miles to the rear.

Watches Across River.

"When the infantry advanced I was at Charny, across the river and above Thiaumont, of which I had a good view. As usual in trench sorties, the first line of attack was followed by trench cleaners, then reserves. The first line opened the way with hand grenades and rifles, finding less resistance than was anticipated. In places the German earthworks caved in, burying the men in the excavations at the rear. The trench cleaners, whose duty it is to make certain the subjugation of the Germans who are alive after the bombardment, passed the French first line of attack, quickly disarmed the remaining Germans and sent them to the rear. The reserves arrived and successfully gaited and held the former enemy positions.

"It was dark when the attack began and pitch dark before it ended. The darkness was emphasized by the tremendous glare thrown by hundreds of illuminating signal bombs together with the sharp flashes of exploding German shells throw vainly to repel the French advance. From where I stood in the silent spectral ruins of Charny I could see the waters of the Meuse glistening un-

der the brilliant artificial light and beyond the barbed wire entanglement posts stood plainly out against the flare. I could see the dark lines where the trenches were or had been.

Signals Are Changed.

"Apparently, the German signal that night for increased artillery fire was a great cluster of crimson lights thrown from a single bomb rocket. These signals change nightly, but the increasing German fire following the appearance of each red shower indicated the source of the signals. Then there were bombs throwing a ghostly green glow, others whose rays were a bright blue. Added to these was a bright light from the French parachute bombs of illumination, which hung high over the German rockets, drifting slowly with the breeze until the flame flickered out.

"The German illuminating bombs, which are not sustained with parachutes, shot up behind their lines, falling in a long arc of fire until the ball struck the earth and disappeared in a cloud of smoke and sparks. The smoke clung densely to the hillsides, obscuring the clear view the illuminating rockets otherwise would have given.

"The activity was maintained until midnight, when the French had strongly established themselves in Thiaumont and the Germans ceased to rush up more men in the costly effort."

BIRDS IN POULTRY PLANT HIGH FLIERS

California, Mo., Sept. 9.—"The birds in the poultry plant here are real high fliers." They have one convenience that no monarch could have enjoyed fifty years ago. That convenience is electric fans.

Electric fans and running water have been installed in the large feeding station of the A. B. Cole & Sons plant here. Under the play of a fountain in the feeding station is the favorite haunt for the ducks and geese.

The management found the fans and water save the lives of many fowls, and make them fatten faster in hot weather.

MUSICIANS ARE HARD HIT BY WAR

FRENCH SINGERS, TEACHERS AND INSTRUMENTALISTS SUFFER MOST.

SMOTHER THEIR PRIDE

Some In Dire Straits, Others Are Starving Despite Comfortable Public Appearance.

Paris, Sept. 9.—French musicians—instrumentalists, concert singers and teachers, excepting those who have gone to America—are among the greatest sufferers from the prolongation of the war. Those who had savings had eaten them up in two years waiting for a revival of social life and the concert and soiree engagements, while today that revival seems to be as far off as it did a year ago.

Some musicians have had engagements, such as opera singers and cafe concert artists. Altho they have suffered less than those who have had nothing to do, they have felt the situation acutely. One singer, who held title roles at the opera and who received about 600 francs a night before the war, now gets ten francs. There are also teachers who have been able to secure pupils, but with a reduction of from fifty to seventy-five per cent in prices. There are many others who have not been able to maintain their classes at all. They, with the instrumental artists out of employment, are in the worst position, for a teacher is obliged to keep up appearances, generally pays a pretty good rental and has a rather expensive household.

Many Hit Hard.

"You would be surprised," said an American musician in Paris to The Herald correspondent, "if you know the names of some great artists that I could cite who are in the worst possible dilemma as a result of prolonged idleness. One of them, a woman who has been applauded by people from all over the world, is living on almost nothing, doing her washing and cleaning her own apartment. Another is selling off his rare furniture piece by piece, tho before the war he posed as a man of considerable means. The rare engagements that such artists now get is only a drop in the bucket, for some of them had incomes of from 20,000 francs upward before the war, lived accordingly and now have nothing."

The musician in greatest distress in Paris is not the poorly clad and worn-faced street singer or musician who goes the round of the Paris courtyards. Today the latter are the aristocrats of the profession. One of these playing in the courtyard, with a baby lying in her violin box, looking much worn, attracted the attention of charitable people who investigated her case and found that she had in her year taken the first prize at the conservatory. Having located her, these people offered her such aid as she required, but she made no reply. The inference was that her courtyard work brought her more than these charitable people offered.

Pride Is Smothered.

The number of musicians who have smothered their pride and gone into the street is very limited, however. Most of them are in dire straits in spite of their comfortable appearance in public, and some of them are nearly starving. Their relief is a most delicate and difficult matter, as few of them are willing to expose their needs. A good deal has been done in this direction, however, by a society of musicians, French and Americans, called "L'Aide Affectionne aux Musiciens," who thru their personal acquaintance with their fellow artists find it easier than most charitable organizations to extend a fraternal hand. As the war goes on, however, with a constant multiplication of charitable committees of different sorts and repeated demands upon charitable people for funds, there is less spontaneous and generous response for the relief of such poverty as this.

Children Cry FOR FLETCHER'S CASTORIA

Peace Not In Sight.

I talked recently with a highly educated American who has just returned from Germany and who cannot be accused of being anti-German. "Do the Germans still believe they will be victorious?" I asked him.

"The Germans are not foolish enough to believe that either side can be victorious," he replied. "They see clearly enough that the war is a stalemate and that prompts them to ask why this useless slaughter

must go on. Granting that neither side can overcome the other, why not make peace? That is the basis of the peace talk you hear about. But the German people would not accept a peace the terms of which placed them in the position of a defeated nation. Rather than that they will go on with the war for years.

The allies do not reckon on Germany being nearly exhausted in men or supplies. They know that she is still strong in both. They are immensely stronger in men than Germany, but it was not until they got the advantage in artillery on the western front that they could advance. If they can still keep on advancing and can ultimately force the Germans back to the Rhine. Few conservative military men think that the Germans can ever be driven further. At the worst for Germany the war will end at the Rhine.

With Germany still strong and unbeaten it is entirely possible that some unforeseen circumstances might give her the advantage again. The allies are aiming their most effective blows at Germany's partners. Turkey is in a bad way. Bulgaria may be surrounded and overwhelmed. But every effort is being made to deal a death stroke to Austria. If the dual monarchy can be put out of the war Germany will have to face all her enemies single handed. That she can do so no one doubts, and but for the British mastery of the sea she might hold out for years.—Martin Marshall in Leslie's.

The Story of The Olive.

The story of the olive is one that begins back in the dim and misty past. For thousands of years man has used this magnificent fruit, and many prominent personages have considered it an indispensable article of food. It was given a prominent place on the tables of Egyptian kings and was revered and often blessed by the patriarchs and Apostolic Fathers. Noah knew that the flood had subsided because his dove returned to the ark with an olive branch. The olive tree has been cultivated for its fruit for thousands of years, and its branches are the emblems of peace. It has been greatly improved by cultivation, and today is considered one of the most delicious luxuries of the table.

Olives grow in different parts of the world, but nowhere to such perfection as along the shores of the mediterranean. The edible varieties are grown in a very restricted area with a radius of fifty miles, of which Seville, Spain, is the center. Here are produced what are known as the Queen and Manzanilla olives—varieties that man's ingenuity has never been able to satisfactorily grow elsewhere.—"National Distinction through Pure Food Ideals," W. C. Jenkins in National Magazine for September.

A Woman's Problem

How to Feel Well During Middle Life Told by Three Women Who Learned from Experience.

The Change of Life is a most critical period of a woman's existence, and neglect of health at this time invites disease and pain. Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Read these letters:—

Philadelphia, Pa.—"I started the Change of Life five years ago. I always had a headache and backache with bearing down pains and I would have heat flashes very bad at times with dizzy spells and nervous feelings. After taking Lydia E. Pinkham's Vegetable Compound I feel like a new person and am in better health and no more troubled with the aches and pains I had before I took your wonderful remedy. I recommend it to my friends for I cannot praise it enough."—Mrs. MARGARET GRASSMAN, 759 N. Ringgold St., Philadelphia, Pa.

Beverly, Mass.—"I took Lydia E. Pinkham's Vegetable Compound, for nervousness and dyspepsia, when I was going through the Change of Life. I found it very helpful and I have always spoken of it to other women who suffer as I did and have had them try it and they also have received good results from it."—Mrs. GEORGE A. DUNBAR, 17 Roundy St., Beverly, Mass.

Erie, Pa.—"I was in poor health when the Change of Life started with me and I took Lydia E. Pinkham's Vegetable Compound, or I think I should not have got over it as easy as I did. Even now if I do not feel good I take the Compound and it restores me in a short time. I will praise your remedies to every woman for it may help them as it has me."—Mrs. E. KISSLING, 931 East 24th St., Erie, Pa.

No other medicine has been so successful in relieving woman's suffering as has Lydia E. Pinkham's Vegetable Compound. Women may receive free and helpful advice by writing the Lydia E. DRAWS PEN PICTURE OF GENERAL JOFFRE

NEITHER VICTORY NOR DEFEAT AFFECTS NERVES OF ALLIES' GREAT WARRIOR.

London, Sept. 9.—The special correspondent of a London newspaper draws the following interesting pen picture of Gen. Joffre, who is believed to be supreme head of all the allied armies, as he appeared at general headquarters:

"It was in a small room 10 feet by 15 feet, furnished with quiet taste, that Joffre, foretold the doom of the Teutonic armies.

"His kepi, adorned with gold braid, hung on the back of an armchair, section maps were on the walls and tables, marked at different points with penciled arrowheads, each of which had been the signal for launching hundreds of thousands of shells at the corresponding point of the actual line.

"It is with a stubby pencil lying on his desk that the general decrees the hammer blows where-with the French and British armies are wasting German man-power.

"Nothing seems easier than to pay Gen. Joffre a call; in reality he is the most difficult man in Europe to approach at this moment. The efficiency of the precautions taken to safeguard him is demonstrated by their unobtrusiveness, yet his safety is as perfect as human ingenuity can make it.

"Vastly more interesting than his surroundings, however, is the man himself. Gentle and paternal, like an old village priest, he is in no way conveys the impression of a superman to whose supreme care the lives of millions of soldiers are entrusted.

"This crushing responsibility he has carried for two years without faltering. He is the same Joffre who began to move his millions in August, 1914, and an officer who has been in constant contact with him assures me that neither victory nor reverse seems to affect the steel nerves of this great war chief.

"His low-pitched voice ever rises above conversational level, his slow-moving speech never accelerates under excitement, because he never appears excited.

"His snowy head, on the well-set, burly body, is that of a thinker. His unfathomable gray eyes reflect none of the horrors of the titanic struggle of which an hourly report has reached him for two tragic years.

"And though for this period he has borne the most tremendous weight of responsibility that ever fell to a single man, without a day's rest, his health remains perfect.

"The secret is that he does his job without worrying. His ambitions are two—first, to win final vic-

THE BOYS' CORN AND PIG CLUB PREMIUMS

The following business men of Beaver Dam, Rockport, Centertown, Matanzas and Hartford have gladly given to the boys in the clubs the amount or articles opposite their names as premiums to these boys in both these contests:

This amount was equally divided between two clubs. The Pig Club boys drew theirs last week. The Corn Club boys will get theirs later, as theirs cannot be decided until the corn is harvested. However the Corn Club boy had to be chosen at once in order to get to the State Fair this year. The State Fair management had asked the School Superintendent Ozna Shults to select one and he did so by lot, with the assistance of Mr. W. C. Blankenship, Prof. H. E. Brown and Mrs. S. O. Keown to draw for them, she drawing the card of Delbert Newcomb, son of L. L. Newcomb, of the Washington neighborhood, who will accompany the winner of the Pig Club contest to the State Fair, Monday, Sept. 11.

ROCKPORT CAMP FIRE GIRLS HOLD PUBLIC COUNCIL

Rockport, Ky.—On Tuesday night, August 29th the Choctaw Camp of Camp Fire Girls held a public Council Fire in the vacant lot back of Presbyterian church. The girls in their ceremonial costumes came in to view in Indian fashion and formed a semi-circle around the fire, in front of which stood their guardian, Wasi-I-Yo-Mina. After the regular candle lighting ceremony the mothers were welcomed to the fire by a short poem and the singing of Wolohe. The ceremonial names were used in the roll call after which the assistant guardian, Lexse, read the Count of an all day picnic given by the Camp Fire Girls at Airdrie on Aug. 18th. Honor beads of the seven crafts were awarded, being immediately followed by the Work Song. A short talk on Camp Fire, its history, organization, and aim was given by the guardian. The meeting was closed by the Boo-ga man Song during which the girls followed the advice of the song, "Pretty little maiden, better run away." The three candles of Work, Health, and Love were extinguished and all that remained was the dying embers of the camp fire.

VILLA'S BANDITS KILL ONE, WOUND 2 IN TRAIN HOLD-UP

El Paso, Tex., Sept. 3.—Passengers arriving at Juarez today from Mexico City said their train was held up below Jimenez by a score of Villa bandits, who killed one Carranza guard and wounded another, as well as a small girl.

After looting the express box and holding up a few passengers, the robbers made their escape.

The passengers added that a loud shouting of "Viva Villa," was kept up by the bandits. The hold-up occurred between the stations of Corralitos and Rellano.

Are You Looking Old?

Old age comes quick enough without inviting it. Some look old at forty. That is because they neglect the liver and bowels. Keep your bowels regular and your liver healthy and you will not only feel younger but look younger. When troubled with constipation or biliousness take Chamberlain's Tablets. They are intended especially for these ailments and are excellent. Easy to take and most agreeable in effect. Obtainable everywhere.

Advanced Notice.

Little Willie came to his mother with the following query "Mother, what would you do if some one broke the large vase in the parlor?" "I would whip him," responded his mother. After a few seconds elapsed Willie, with a broad grin, said: "Well, you better get ready. Papa broke it."

EXPLORES FAIL TO FIND CROCKER LAND

NAVAL OFFICER RETURNS AFTER THREE YEARS IN FAR NORTH REGION.

New York, Sept. 12.—Ensign Fitzhugh Green, United States navy, who has passed the last three years in the Arctic regions with the Donald B. McMillan expedition in a vain effort to find "Crocker Land," returned to this country last week.

He repeated the statement made by many other members of the expedition since they returned to civilization—that Crocker Land was a myth. The entire region spoken of by Peary was explored and no such land as described by the admiral was found. The region was full of mirages, which at first deceived persons into thinking land was close by, but disappeared upon investigation, he said.

Ensign Green said that the head of the expedition, Donald B. MacMillan, would arrive in this country in a short time and publish a full resume of the voyage.

While the primary object of the expedition—the discovery of Crocker Land—failed, the voyagers gathered considerable new scientific data. The expedition was sent out in July, 1913, under the joint auspices of the American Museum of Natural History, the American Geographical Society and the University of Illinois. It was formed because of Peary's statement that he had seen a field of mountains through his glasses from Cape Thomas Hubbard in July 1906.

The expedition's steamship, the Dianian, ran aground in the Straits of Belle Isle, July 17, 1913, and the party was transferred to the sealer Erik. A station was established at Etah and a party of the expedition went on to Flagler Sound, from which they commenced the search for Crocker Land in February, 1914.

In June, 1915, failure to hear from the expedition caused its backers to send out the relief ship George E. Cluett. The ship met bad ice conditions and was forced to put in at North Star Bay. The relief party proceeded further north in a motor launch placed at its disposal by Knud Rasmussen, the Danish explorer.

At Etah the expedition was found suffering from want of food. Ensign Green made a perilous journey by sledge to Southern Greenland. On August 22 of this year he notified the Navy Department of his safe arrival at Copenhagen.

Green had declined to give up the search for the elusive Crocker Land, even in the face of starvation. He worked under the most unfavorable conditions for a long time before he was convinced that the effort was in vain.

PEOPLE.

I am sorry for them all Whose ceaseless footsteps rise and fall

Along earth's highway endlessly, The people in the world with me; Who have dreams, and yet must take The gifts life has for men awake, Who build their lives each day anew On hopes they know shall not come true,

Who walk the world till sleep, and then At dawn must walk the world again, Who ask God's favor, knowing still He does not break his changeless will For any faulty changing cry Of men he makes to live and die.

I am sorry for them all. So sorry! Until I recall How life's adventure swings afar Above tomorrow like a star, And how our dreams paint golden-bright

Gray working-day and resting night, And all the love each man who lives May buy for merely love he gives And how it comforts us to pray Whether God hears or turns away, And how to work, and sleep, and wake

Is good for the mere going's sake; Till, whether life seems gay or sad, I am so glad for men—so glad! —Margaret Widdemer, in The Bellman.

AMERICAN CITIZENS RECALLED.

"The constitutional rights of American citizens should protect them on our borders, and go with them throughout the world, and every American citizen residing or having property in any foreign country is entitled to and must be given the full protection of the United States Government, both for himself and his property."—From the Democratic platform of 1912.

After President Woodrow Wilson had accepted the above and had been elected on this platform he ordered American citizens out of Mexico and compelled them to leave their property, which he says should be given the protection of the United States Government, for the Mexicans to loot and destroy. If they stayed in Mexico to defend their property they did so at their own risk, he told them. Can he now ask the proud American to support him for another term?

"Remember the Maine," would not make a very good Democratic campaign cry.

Some Democrats agree with Sherman and actually believe Wilson has kept us out of hell.

Bakers are considering a raise in the price of loafing. Many Hartford people would be affected.

Enemies of the pigskin game are watching and waiting to see who will be the first 1916 football victim.

Reports from the border say Kentucky militiamen are seeing snakes. A change of brand has a queer effect at times.

According to the numbers of reports of his death Villa has more lives than any tom cat we ever heard of.

In a few years the present militiamen will likely be parading the streets as the Second Mexican War Veterans.

Mayor Her has ordered the latest fashion book in order that he may dress the old town up properly for the Ohio County Fair.

The Adamson law was enacted on the "eve" of a strike and consequently the Democrats are likely to be put out of the political Garden of Eden.

Anti-Hughes editorial writers are fond of taking jabs at the Republican nominee's whiskers, but so far they have failed to get his goat—tee, hee.

Many people attended the State Fair at Louisville Tuesday because it was Governor's Day, but many a lad went to school that day instead, for the same reason.

Those Paris negroes who broke up their baptizing with a quarrel as to the methods to be used and finally a shooting scrape, evidently thought it better to trust and keep their powder dry than to believe and be baptized.

THE VICTORY IN MAINE.
With all eyes upon her and all ears eagerly fixed to hear the result, Maine comes across with a Republican majority as in the days of old. Practically every member of the Cabinet visited the old Commonwealth in the interest of the Democratic State party and the Wilson administration, while Hughes, Roosevelt and other prominent Republicans were at one time or another on the grounds for the Republicans.

Each party claimed victory before the election and the near 14,000 majority was a hard blow to the Democrats. Every Republican running was elected with votes to spare.

The Republican victory in Maine is significant for two special reasons. It shows that the Republican party is reunited and that the people are not going to flock to the support of Wilson on the mealy plea that he has kept us out of war.

Democrats are claiming that the defeat means nothing. They say that only a majority of 15,000 would indicate that the voters do not approve of the administration policies. If the majority had been 15,000 they would have said 20,000 just as quickly. They could have done nothing else. We have heard only explanations from our Democratic friends. There have been no celebrations.

It is the first real test. The result indicates a Republican victory in November and G. O. P. followers are pleased.

WHERE OUR DANGER LIES.

Even a few months before the great European struggle burst forth and caused nations to stampede like western herd the man who foresaw the cloud and dared utter aloud his prophecies was ridiculed and laughed to scorn. So long had our interests been protected by the wing of the dove of peace that we imagined war only a guise for the exchange of puppet crowns. We looked upon a treaty as an iron bound contract, respected by both the mighty and the lowly. War, to our minds, was only history made by the extinct world conqueror and chronicled by ancient foes.

It is no wonder then that we were startled beyond realization when we suddenly awoke to find nations grappling at their neighbors' throats, and frenzied rulers seeking the blood of their kinsmen. The civilized world was horrified and until this day it has not realized fully the awfulness of the thing. Neutral nations were frightened lest they become engaged and some even wondered how they had escaped and went so far as to congratulate themselves that they had. Across the continent some desired to pay homage to a fancied exalted power that had saved them from the throes of war, when in reality, there was no cause whatever for their participation.

The United States, one of the most peaceful nations in the world, was suspicious and with his back unconsciously to the real danger Uncle Sam stands at the edge of the rolling waves, each one reddened by the blood from Europe's battlefields, and watches to see who he should watch and all the while he scorns the warning to look behind. England also scorned those who would foretell the conflict that was to come.

Unless there is a miraculous change in the sentiment of the Japanese we are as certain that we face a war with Japan as we are of things that have happened. The little people of the Orient multiply so rapidly that it is absolutely necessary that they have an outlet. They seek the United States. This country would be unmistakably foolish to permit the hundreds of Japs to land on its shores. There are too many here now.

But Japan is a proud nation. She feels that her people are just as good as any and when we refuse them admittance to our shores their pride is wounded and they stamp us as their common enemy. The Japanese also are ambitious and are over fond of the power of dictation. A short time ago they made demands upon China, the compliance with which was extremely humiliating. Not satisfied she now demands more. Ultimately poor China will be a province of Japan and she will also grasp at the Philippines should we liberate that possession. She will always want more. How far will, or can, we permit it to go?

Japan has profited immensely by the war. The government owns great munition plants and all of the products will not go to Russia. She is preparing for war with the United States and we agree with those who say we are powerless to prevent it without sacrificing principles men have gladly died for. We don't want to believe it and in our anxiety not to do so we almost lose sight of the danger.

Such a war would be a fierce one. We are in danger of finding ourselves unprepared and such being the case those who fight preparedness should be placed in the ranks where only mere men are needed.

Of course should our relations with Japan become again strained every effort should and will be made to settle the grievances by arbitration, but we cannot arbitrate that hatred for America that is so firmly set in the heart of the Japanese. Our danger lies to the West and we should remember that friends will be needed should the struggle come.

GROUNDS PRESENT GALA APPEARANCE

WORKMEN PREPARE BUILDINGS
AND TRACK FOR THE OPEN-
ING OF OHIO CO. FAIR.

Workmen have been busy for the past several days preparing the most beautiful fair grounds in the State for the 31st annual meet of the Ohio County Fair next Thursday, Friday and Saturday. All buildings needing it have been repaired and whitened and the track has been put in good condition. The beauty of the park will be one of the Company's greatest attractions this year and its gala appearance will add a spark or two to the merriment of the visitors.

Business houses on Main and other Hartford streets have agreed to have the streets swept in front of their places and the city will haul away the trash damaging to a neat appearance. It is also likely that the town will be decorated for the fair next week. This awakening of civic pride is a source of gratification to the public spirited citizens.

Much interest is being taken in the annual fair hop to be given at Dr. Bean's rink Friday night and it is expected that many out of town visitors will attend.

MAINE CARRIED BY RERUBLICANS

(Continued from First Page.)

Both the Republicans and Democrats had thrown their full strength into the contest.

National issues were kept to the front from the start to the finish of the campaign. Several members of the President's cabinet were in the State and more than fifty orators of national prominence in both parties campaigned throughout the State.

Peace vs. Tariff.

The peace issue was kept in the foreground by the Democrats. It was the belief of the Democratic managers that the Maine election would show whether or not the people believed the President should be elected because he kept the country out of war.

Hert Sees Victory.

Chicago, Sept. 11.—"Maine gives the first appeal for a return to a protective tariff and the first answer to the Adamson bill," Alvin T. Hert, Western Republican campaign manager, said tonight.

"The victory today assures us of victory in November. The victory means that Maine has had enough of the Wilson Administration. It also means that the Republicans are to gain control of the United States Senate and that Charles E. Hughes, when he enters the White House next

March, will be accorded the support of a Republican House and a Republican Senate. As goes Maine, so goes the Union."

Senator Walsh, of Montana, Democratic Western campaign manager, would not comment on the returns early in the evening. He said they were too incomplete.

STRAY STREAKS.

(By Fluke McFluke.)

We spent the hinder part of last week and the front end of this week camping down the river. Yes, I was unduly afflicted with sobriety, the wife was with us and on the job all the time.

It's a sad, sad time for Heg Cas-bier when he is forced to spread so much gray or white paint. To our certain knowledge Heg has to a very large extent, smeared more of the red during the past 20 years. Yes, Heg's long suit has decidedly been in the use of the red.

Chief of Police Burton has been in office but little more than two weeks and it is said that he has already prepared and delivered more than one-half as many notes as President Wilson has in his whole term. Go to it Bill, we are for you even if paper is advancing.

The boss forced us to work 8 hours and 33 1-3 minutes yesterday and knowing that the public is bound to have this sheet and that it can't be gotten out without us, we served a strike order this a. m., affective next Monday, believing however, that Mayor Her would call the City Coun-

cil together and have an 8 hour law passed, and like some others we know of, we don't exactly court investigation, either.

Mrs. S. O. Keown, Mrs. Rowan Holbrook and Mrs. Ed Barrass, each accompanied their husbands to the State Fair this week. The modern woman has it all over the ancient sister when it comes to diplomacy, economy and especially in keeping most excellent husbands in the very best condition.

Just why Ernest Birkhead would have bars placed across the windows of an up-stairs room, as he says to keep the children from falling out, when it developed that no one but Ernest ever uses the room is more than we can understand. It looks to us like an old gent was rather on-sartain of himself.

Rol Riley's friends say that if he, R. R. is forced to go thru another season without base ball and as little fishing as this season has furnished Hopkinsville or Lakeland's population is certain to be increased by at least one.

You can fool some people part of the time but you can't fool all of the people all of the time—for they are coming to the Ohio County Fair in droves next Thursday, Friday and Saturday.

Dr. L. B. Bean has repainted and decorated his opera house and when the installation of the new equipment is complete, will operate a moving picture show. He expects to open the theater before the fair.

Mr. Mayworth Barnard arrived Tuesday from Tulsa, Okla., where he has been engaged in the oil business for the past several months. Mr. Barnard expects to move with his family to Oklahoma in the near future.

What would a circus be without an elephant? What would a county fair be without a merry-go-round? One of the most beautiful machines ever constructed will be at the Ohio County Fair Thursday, Friday and Saturday.

Reports say that people all over Ohio county are making arrangements to meet you at the Ohio County Fair Thursday, Friday and Saturday. Three days of recreation, amusement and genuine pleasure. Haven't you earned a short rest?

Mr. Guy Statler has resigned as superintendent of the McHenry Mines to accept a traveling position. He will make his headquarters in Louisville for the present but expects to be transferred to Nashville, Tenn., later and will then move his family to that city.

The Great European Shows will be at the Ohio County Fair Thursday, Friday and Saturday. Arrangements to that effect were made with Secretary Simmerman, of the Fair Company, this week. The Great European Show company will bring six big attractions.

The management of the Ohio County Fair has signed a contract with Capt. William Kanell, the famous high diver, who will dive 120 feet into a small tank each day of the fair, Sept. 21, 22 and 23. This is forty feet higher than any man ever dived in Ohio county. There will also be a balloon ascension each day.

Word has been received here to the effect that former Lieutenant Clarence B. Shown, of Company H, K. N. G., has been appointed Captain of the company to succeed Captain James M. DeWeese, and that former Sergeant Estill L. Barnett has been appointed 1st Lieutenant. The latter has been detailed to instruct recruits at Ft. Thomas. Members of H Company seem to be well pleased with their position on the border. It is expected that they will be put on active patrol duty in a short time.

LATEST WAR NEWS

Monday.

Austria.—That Austria-Hungary, while she would hail peace with joy, has no intention of quitting the fray at the present under the terms her enemies would impose, is the statement made by Baron Bulan, the Austro-Hungarian Minister of Foreign Affairs.

Rumania.—The capture of Silistria, a Rumanian fortress sixty miles east of Bucharest, was announced last night by the Berlin War Office. According to the same statement the Russians and Rumanians fighting in Dobrudja apparently have suffered very considerable losses during the past few days. The Rumanians are keeping up their advance against the Austrians in Banat and have forced the Austrians to withdraw to their former positions under a strong counter attack. Berlin and Vienna concede that gains have been made by the Russians in the Carpathians west of Zable. Attempts on the part of the Slavs to break through the Austrian lines at Halez, however, are said to have failed.

France.—Repulse of German counter attacks are reported by both London and Paris in the Sunday communications. In a review of the operations along the Somme for the past week the British claim to have taken ground from the enemy to a depth varying from 300 to 3,000 yards along a front of 6,000 yards. Seven German aeroplanes are said to have been forced down in numerous air battles, and the French have also bombarded various railroad depots.

Bulgaria.—The Bulgarians are evacuating Varna, the principal port on the Black Sea, according to information received yesterday in London from Genoa.

Tuesday.

Macedonia.—The British troops in their advance across the Struma in the region of Lake Tachinos have driven the Bulgarians from four villages, says a London War Office statement on the operations in Macedonia. The British also repulsed strong Bulgarian counter attacks.

Transylvania.—Austrian troops fighting in Eastern Transylvania have been withdrawn further in front of Rumanian forces, says an official statement issued from Austro-Hungarian headquarters. Rumanian attacks north of Orsova, on the Danube, were repulsed by the Austrians.

Wednesday.

Western Front.—The French, in the renewed offensive north of the Somme, again have smashed the German line, capturing the front line trenches and about 1,500 prisoners. Three and three-quarter miles of trenches were taken within half an hour. Additional trenches were taken east and southeast of Comblies, which make the French position north of Peronne a menacing one.

Macedonia.—On the Macedonian front the heavy offensive of the Entente Allies continues. Bulgarian trenches on a front of two miles and to a depth of 800 yards are said to have been taken by the French. The Teutonic Allies are said to have suffered heavy losses. It is unofficially reported that the Bulgarians have evacuated the forts at Kavala due to the presence of allied warships in the harbor.

Thursday.

Greece.—M. Dimitracopulos, former Minister of Justice, has been asked by King Constantine to form a new Cabinet. The resignation of the Zaimis Cabinet has been accepted. Dimitracopulos, a supporter of the policies of Venizelos, has expressed the opinion that with Rumania in the war it was time for Greece to abandon her neutrality.

France.—North of the Somme the French enlarged their positions opposite Comblies and stormed new trenches. The Paris report claims that 2,300 Germans were made prisoners within the past two days.

Farm and Timber For Sale. Situated on railroad, one mile north of Echols, Ky. About 75 acres, half in cultivation and balance in good timber. Good house and two barns, outbuildings, concrete cellar, three everlasting wells of water, young orchard. Will be sold in next 30 days. ERNEST BROWN, Hartford, Ky.

BEAVER DAM DEPARTMENT. Sept. 13.—Misses Nell Plummer and Geneva Taylor left Monday to enter school at Peoria, Ill. Mr. Claude Shultz spent last week-end at his home at Narrows. Mr. and Mrs. C. P. Austin left Tuesday to spend the remainder of

The New Goods For The Autumn Season

Now Occupy all Departments
of Our Store.

In the two weeks just closing the stocks of the store have undergone a complete change. Summer goods have slipped quietly away and the many sections now present fall and winter merchandise—fresh, new, fascinating.

We shall maintain our reputation of the past twenty-eight years—that of moderation in price.

In spite of a flood of ill-made, trashy productions caused by existing market conditions, our patrons will be offered merchandise of intrinsic worth.

Women's New Fall Coat Suits are arriving in great numbers.

Fullness and soft lines seem to dominate both Suits and Coats. Suits made of Serge, Gaberdine and Poplin seem to be used. Prices from \$10 to \$22.50.

We would be pleased to have you call and let us show you the New Goods, Suits and Coats.

DOLLAR AND A HALF WHEAT

1.50 for September wheat in the Chicago Market! A dollar and a half for cash wheat before the rattle of the thresher has died away in the winter wheat belt.

By September 1st wheat generally touches its lowest point. The winter wheat is then on the market and spring wheat is pressing hard for sale.

A dollar and a half for September wheat makes us think. In 1914 with a billion bushel crop, wheat toppled the market in February at \$1.67. With a crop in 1916 one-third less and with no reserves, wheat selling for a dollar and a half, makes us think there is something good in a 1917 crop of wheat to our Farmers.

Let's get busy and make a bumper crop in 1917 which will mean bumper dollars. In order to reap the best results on a wheat crop in this country farmers should use the best Fertilizer and that is DAYBREAK, which we will offer to you for cash at prices that cannot be duplicated. See us and place your orders now, so that we can get the goods to you in due time.

SOUTH AMERICA IS MAGNET FOR JAPS

THOUSANDS BARRED FROM U. S. FLOCK TO THE LATIN COUNTRIES.

Tokio, Sept. 9.—With the gentleman's agreement barring the way to the United States, Japanese immigration has been flowing in a growing stream to South America and has now reached large dimensions. The Kiyo Maru of the Tokio Kisen Kaisha service sailed from Yokohama with 931 steerage passengers aboard, all of whom, except a very few bound for Honolulu or San Francisco, were booked for South America.

The steamer also carried forty-five Japanese girls on their way to South America to become the brides of farmers who have settled there. They were selected by a marriage agency out of 200 applicants. The fortunate ones were the survivors of a strict examination into their physical and mental condition and their education.

Brazil is most attractive to the Japanese who find that they get profitable opportunities there for land cultivation. The Japanese community already numbers 7,000, according to reports reaching this country, and they are as a rule prosperous and contented with their condition.

SUPERSTITION OF LIGHTING CIGARETTES IS EXPLODED

New York, Sept. 13.—John C. Wilson, brother of George T. Wilson, one of the vice presidents of the Equitable Life Insurance Society, was talking with two friends in the Waldorf-Astoria. He pulled out a cigarette case and handed it to his friends. One of them favored him with a light. First one cigarette then the second was lighted. Then Mr. Wilson flicked the match from the other man's fingers.

"Never light three cigarettes with one match," he said, with a frown. "Why, had luck?" he was asked. "No, not exactly, but before I go to dress for dinner I guess I can tell you the reason. Not so very long ago the directors of a certain match company are said to have met to de-

cide on how to increase still further the sale of their lights. Nobody had any ideas until an Irish secretary, who was in the office, said:

"I have a suggestion."

"Asked what it was, he explained that it would be a fine idea to spread a report that it would be bad luck to light more than two cigarettes with one match. The suggestion is said to have made good."

"Why did they stop at two when they might have made it one?" Mr. Wilson asked.

"Too extravagant—nobody would have believed it," he answered.

RUSSIANS SHOW MOVIES IN GERMAN PRISON CAMP

Berlin, Sept. 3, via wireless to Sayville.—Twenty captured Russian officers interned in the prison camp at Burg, near Magdeburg, have organized a moving picture company, with the consent of the German military authorities.

The strange company has a capital of \$500 and is doing an excellent business. The building for the theater is situated in the center of the camp and has been donated by the German army administration. It contains 250 seats and is sold out twice daily. An admission fee of 12 cents is charged. The films are furnished by two German companies at a nominal rental and the program is changed twice every week. Four German officers act as censors.

Cook Out of Doors Now.

There was an explosion which sounded like several earthquakes, and then this interesting conversation followed:

"Oh, Mary, what have you done?" "It's all right, ma'am; it's only the stove gone out." "Gone out?" "Yes, ma'am; thru the side of the house!"

SECRET MILITARY MAPS OF U. S. STOLEN, FOUND

New York, Sept. 9.—The theft of secret military maps of the United States was said to have been disclosed tonight when federal agents who recovered them confronted Herbert Sauer, in jail here, and accused him of stealing them from coast guard officers. The maps, it was said, were recovered in a rooming house in Baltimore, where Sauer is said to have lived.

Sauer, who claims to be the son of a Westphalian nobleman, was arrested here a few days ago in connection with the mysterious death of Mrs. Caroline Tiarks, 73 years old.

Federal agents asserted tonight that eight maps containing military information about the waters around the Aleutian Islands were found in Baltimore. Mystery, they said, surrounded their disappearance, though Sauer admitted he deserted from the coast guard. A coast guard code book stolen at the time the maps disappeared from the cutter Apache also were found in the rooming house, according to the authorities.

TARIFF ON POTATOES IS MAIN CAMPAIGN ISSUE

Augusta, Me., Sept. 3.—The issue in the Maine campaign is potatoes. The members of the national parties may talk their heads off about the navy, preparedness, industrial invasion, "pork" and child labor—the people of the Pine Tree State want to hear about potatoes. "Give us a high tariff and keep out importation from Canada," is their campaign cry. Maine is a great potato-raising section. The farmers of Aroostook, Androscoggin and Piscataquis can raise tubers almost as big as water-melons, and with the tariff lifted to the proper figure can get a high price for their product and keep the wolf far from the threshold.

Therefore, the eloquence expended on the issues, which are of absorbing interest in other parts of the nation, are wasted in this state.

HUGHES TO DECLINE ALL LUNCHEON ENGAGEMENTS

New York, Sept. 3.—Charles E. Hughes, Republican candidate for the presidency, will not attend formal luncheons on campaign trips hereafter, according to an announcement at Republican National headquarters here tonight.

Affairs of that kind on the candidate's Western trip proved too great a strain, it was said.

BEAVER DAM DEPARTMENT.

Sept. 7.—Mrs. J. B. Bir and daughters, Misses May and Nell Bir, left Monday for Louisville, where they will now reside.

Mrs. George Brunton and children have returned for the school year, accompanied by Mrs. Brunton's niece, Miss Allen, who has charge of the music class.

Miss Reeves, of Bowling Green, arrived Saturday and filled her position in the school Monday.

Mrs. A. K. Miller and daughter, Miss Myrl Miller, returned to their home in Tulsa, Okla., Saturday, after an extended visit with friends and relatives.

Misses Key and Keener Napier returned Saturday from a month's visit at Green Castle and Bowling Green.

Among those attending the Lincoln Farm celebration Monday were: Mr. John Barnes and family, Mr. and Mrs. Lee Barnes, Dr. and Mrs. Willis, Mr. and Mrs. Porter Barnes, Messrs. Morgan James, Claren Flenner and Will Williams, who received the President's messages.

Miss Grace Bugg Williams left Tuesday for Lookout Mountain to resume her position in the school.

Mrs. V. M. Stewart left Sunday to join her daughter, who is teaching in the Louisville Conservatory of Music.

Miss Maude Harrison returned to her home in Owensboro Sunday after a short visit with Misses Bess and Anna Alford.

Miss May Tyler Cook has returned from an extended visit with relatives at Whitesville.

Mrs. S. P. Taylor, who has been quite ill at her home, is improving nicely.

DRUNKEN MARINE PULLS DOWN UNION JACK

Tokio, Sept. 9.—For having made a United States marine drunk on the Fourth of July at the Grand Hotel, Yokohama, and then dared him to pull the Union Jack down from the wall and dance on it—which the marine did—a German named Hermann Wohlers has been ordered deported from Japan by the Japanese authorities.

Other actions detrimental to the allied Powers are alleged against Wohlers, but the Fourth of July incident is the principal. He is a bachelor and has lived in Yokohama for three years. He followed no definite occupation.

The incident of the Union Jack

caused a sensation in the Grand Hotel at the time it occurred, which was in the middle of a Fourth of July ball, but everyone recognized it for a drunken lapse and nothing was said about it. The marine was arrested and is now at Shanghai awaiting trial by court-martial.

BATTLEFIELD SOUVENIRS BRINGING BIG PRICES

Paris, France, Sept. 9.—Small fortunes are being made by collectors of souvenirs from Europe's battlefields. Many publish catalogs setting forth descriptions and prices.

In one list a silver and gold German staff General's helmet is ticketed at \$480. A helmet and breastplate of a major in the Kaiser's body-guard is quoted at \$150; a field officer's great coat, "stained with blood," was offered for \$40. Shell fragments were marked \$1 to \$3.

All except soldiers are forbidden to collect weapons or other articles left on battlefields, but soldiers send trophies to friends.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This is a remedy that every family should be provided with. Colic and diarrhoea often come on suddenly and it is of the greatest importance that they be treated promptly. Consider the suffering that must be endured until a physician arrives or medicine can be obtained. Chamberlain's Colic, Cholera and Diarrhoea Remedy has a reputation second to none for the quick relief which it affords. Obtainable everywhere.

BRAVE MUSICIAN BURIED WITH PIPES BESIDE HIM

London, Sept. 9.—D. R. Thomas, miner's secretary for West Auckland and football referee, has received a letter from his brother, Private P. Thomas, who is serving out in France in which he says:

"We came here just after the boys had made the first charge. It is a terrible hole. A mixture of heavy shells, gas and tear shells, drop around you day after day.

"Our first job here was to bury the poor lads from the North who made the charge on this spot—Tyneside Scottish, Tyneside Irish, and Northumberland. God knows they had something to do. The Huns dug themselves in thirty feet to forty feet below the ground.

"These gallant regiments played their part well. One piper I buried must have played his pipes right on to the German lines. I buried his pipes with him. Braver men than these never lived. We buried them where they fell, and we were under shell fire all the time."

Reassuring Mother.

Edmund had just begun to attend the public school, and had found a new friend, a child of whom Edmund's mother had never heard.

"Who is this Walter?" she asked.

"Is he a nice little boy?"

"Yes, ma'am, he is!" replied Edmund, enthusiastically.

"Does he say any naughty words?" pursued his mother.

"No," replied Edmund, with emphasis, "and I'm not going to teach him any!"—Youth's Companion.

Slip a few Prince Albert smokes into your system!

You've heard many an earful about the Prince Albert patented process that *cuts out* bite and parch and lets you smoke your fill without a comeback! Stake your bank roll that it proves out every hour of the day. Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

There's sport smoking a pipe or rolling your own, but you know that you've got to have the right tobacco! We tell you Prince Albert will bang the doors wide open for you to come in on a good time firing up every little so often, *without a*

PRINCE ALBERT

regret! You'll feel like your smoke past has been wasted and will be sorry you cannot back up for a fresh start.

You swing on this say-so like it was a tip to a thousand-dollar bill! It's worth that in happiness and contentment to you, to every man who knows what can be gotten out of a chummy jimmy pipe or a makin's cigarette with Prince Albert for "packing"!

THE Prince Albert tin, and in fact, every Prince Albert package, has a real message-to-you on its reverse side. You'll read: "Process Patented July 30th, 1907." That means that the United States Government has granted a patent on the process by which Prince Albert is made. And by which tongue bite and throat parch are cut out! Everywhere tobacco is sold you'll find Prince Albert awaiting you in tippy red bags, 5c; tins, 10c; handsome pound and half-pound tins humbly and in that clever crystal-glass humidor, with sponge-moistener top, that keeps the tobacco in such fine condition—always!

CRIMINALS COME AS WAR REFUGEES

RUSSIAN OUTLAWS ENTER UNITED STATES UNDER GUISE—FEAR NEW "GANG."

Seattle, Sept. 9.—Arrival of a number of Petrograd's and Moscow's most desperate criminals in the guise of Russian war refugees has resulted in extra precautions by police and immigration authorities along the entire Pacific Coast.

Led by two Slav wolves of the underworld, an organization of Russian outlaws has just been wiped out in the West after a two years' reign of terror resulting in ten deaths and many wounds.

Banded together to rob banks, nineteen Russians secured \$22,000 within a few months between British Columbia and Los Angeles, Cal., killed two police officers and wounded four citizens.

In a series of running battles and barricade fights with posses, eight of the bandits were finally killed, seven were captured and four, including the two notorious leaders, escaped. The last of the arrests and convictions, that of Souloff Aslemdek, recently put the finishing chapter to this reign of imported criminals.

A quarrel in a Slav lodging house here over their spoils led to the capture of half a dozen of the most desperate members of the gang by Burns operatives and the police.

Always heavily armed and ready to shoot at the slightest show of resistance, these Russian brigands held life more cheaply than any desperadoes who have recently operated in the West.

It was their practice in holding up banks to intimidate the cashier and tellers by shooting glass windows and counters into slivers, and many a bank clerk today carries the scars of such splinters in his face.

Three of the leaders, who directed the operations of the gang without actual participation in the robberies and shooting, are known to be in the West still. The authorities fear that an attempt is being made now to organize another bandit gang by bringing in from Russia former outlaw associates of the men already here.

That is the tip from the underworld, and that is why the arrival of Russian war refugees is being so closely watched.

MAN ARRESTED ON WARRANT BROUGHT ON DEUTSCHLAND

Jersey City, N. J., September 6.—Wladislaw Kubicki, living with his wife and two children here, was arrested today on a warrant brought by the captain of the German merchant submarine Deutschland, which charged him with the murder of Valerie Klesofnska four years ago, in

Mecklenburg-Schwerin, Prussia. The young woman was choked to death and her body thrown in a pond, the warrant alleges, after she had quarreled with the prisoner's wife and had caused her arrest.

Kubicki denied knowledge of the murder, but admitted, the police assert, he had been in the neighborhood where the girl met death. The body was found a year after the slaying when the pond into which it had been thrown dried up. Extradition proceedings will be begun tomorrow.

VANDERBILT WOULD FORTIFY BORDER WITH BARBED WIRE

McAllen, Tex., Sept. 3.—Maj. Cornelius Vanderbilt, inspector on the New York militia staff, has worked out a scheme for holding the Mexican border with barbed wire entanglements, electrically charged.

He believes that 20,000 national guardsmen so fortified could protect American territory as adequately as at present and \$123,000,000 within two years.

His scheme contemplates a great military highway, the length of the boundary, on which troops and supplies could be transported rapidly. He leaves for future consideration the construction of a military or semimilitary railroad.

GRAPE LEAVES FORM SUBSTITUTE FOR TEA

Berlin, Sept. 9.—Since the importation of tea has been cut off by the British blockade of all kinds of substitutes have been tried, but few of them have proved satisfactory. Last spring experiments were begun with the young leaves of the grape vine and the result was surprising. It was found that the tea obtained from the leaves had an excellent flavor.

In early summer hundreds of tons of the leaves were cut and dried in the wine districts of Western and Southern Germany and they are now sold everywhere as "genuine German tea."

BOY, 19, KILLS MOTHER AND FATHER 'TO GET WAR TAX'

Palatka, Fla., Sept. 5.—John Meuller, 19 years old, yesterday killed his father and mother by shooting them with a rifle. He buried the bodies in graves which had been prepared in advance of the killing.

When arrested he said he killed them "because I had to do it to get the war tax."

The mother was killed at the home, three miles from town, and the body buried in a shallow grave. Then Meuller hastened a mile down the road, where he shot his father from ambush, dragging the body through the woods to the home.

The mother was bound with wire, which the boy bought yesterday morning at a Palatka store. She was shot five times and the father three times.

The Meullers moved to this state from Germany eight years ago, and had amassed considerable property. The father was a farmer. John Meuller was the only child.

PROPOSAL TO SHORTEN FIRST FIVE COMMANDMENTS MADE

New York, Sept. 7.—A proposal to revise and shorten the first five of the ten commandments will be submitted to the next General Convention of the Protestant Episcopal Church.

The proposed changes are recommended by a commission of bishops, clergy and laymen, which has been considering the project.

It is proposed to eliminate portions of the first five commandments, on the ground that arguments for the observance of divine law are not essential to the laws themselves. The revised version of the commandments, as proposed, is as follows:

1. Thou shalt have no other gods but me.
2. Thou shalt not make unto thyself any graven image, nor the likeness of anything that is in the heaven above, the earth beneath or in the water under the earth. Thou shalt not bow down unto them nor worship them.
3. Thou shalt not take the name of the Lord, thy God, in vain.
4. Remember that thou keep holy the Sabbath day.
5. Honor thy father and thy mother.

FORMER GOV. STEPHENS HITS "SAWDUST TRAIL"

Asbury Park, N. J., Sept. 3.—Billy Sunday was thoroughly angered when, at the close of the morning sermon, a number of persons in the audience got up from their seats and started to leave the building.

"Sit down, you can't go out!" he shouted.

"You are going to stay here until I get what I want."

What he wanted was penitents, for he gave the invitation and they came streaming down the aisles.

Among the first to grasp the evangelist by the hand was former Gov. Lon V. Stephens of Missouri, who is spending the summer in Asbury Park. So distinguished a trail hither brightened Sunday up wonderfully and he forgot all about his peevishness.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—An interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.
